Judge Smith Wednesday issued a license to Walter Moore and Nannie Blythe, both of Leanna, and before they could get out of town he followed them to the Iola House and married them.

The weather right now is ideal. Cold, frosty, clear, with very little wind—for Kansas—it reminds one of the winters in the northwest.

Pratt Williamson is quite sick at his home, 207 south Elm street. The members of the Modern Woodmen lodge are helping to nurse him.

January is always a dull month in police court but as soon as the New Year's resolutions begin to lose their grip lost time will be made up.

The county recorder's office shows that H. J. Beal, Martin Sauer, and Emily Foster have given oil and gas leases on their places to the city of Humboldt which recently voted bonds to prospect for gas.

The well drilled by Chauncey Rush for the cement works was finished today and it has 155 feet of water in it. It is a drilled well six inches in diameter and 179 feet in all. There seems to be a good flow of fresh water and it will serve to refresh the thirsty for some time to come.

Mr. Leigh Hunt, of the Cement Plant, is in Adrian, Michigan, this week, and when he returns it is understood that his bride will come with him. Which is sufficient explanation of that new house, newly furnished, down on South Sycamore street.

The disposition of children largely depends upon health. If they are troubled with worms, they will be irritable, cross, feverish, and perhaps seriously sick. WHITE'S CREAM VERMIFUGE is a worm expeller and tonic to make them healthy and cheerful. Price 25 cts. Evans Bros.

We are surprised that the Iola papers did not claim that the fire was in east Iola. They did come nearly doing so—Lathrop Argus.

This is in reference to the Lanyonville fire. The REGISTER never claimed credit for the fire and never even insinuated that the lady editor of the Argus was not the promoter of the whole thing. And were it otherwise, Iola has as good a claim to the city of Lanyonville as Lathrop has.

The K. U. glee club gives a concert at Ft. Scott Saturday night and here Monday night. It is exceptionally strong this year and some one should organize a demonstration to make the concert a success.

A. H. Brown is up from Neodesha and renewed his subscription for the Daily REGISTER for two months. "At the end of that time," he said, "I expect to be back in Iola with my family." Which is good news to all their friends.

Dr. Teas has bought the house at the corner of Buckeye and Neosho streets formerly owned by Jerry Bedell. It is a good property and the REGISTER hopes that the doctor and his family will long live and prosper in the new house.

The Tribune says that the largest and costliest ticket ever sold in Chanute was sold yesterday to R. C. Rawlings who goes from Chanute to Chanute via San Francisco, Honolulu, Sydney and back to Chanute. It cost only \$416.

The Ottawa Republican prints the following timely parody:
Than little Jack Hower
No one was forlornier
His mouth was all made up for a cry—
For his folks "boarded out,"
And you bet, without doubt
There's no plums in a boarding-house pie.

Jas. Lockhart says that the report that Henry Hauser's horse was killed at the time of the collision near Humboldt night before last is incorrect. He lives nearby and says that the couple rode the horse home, as the buggy was cut loose at the shafts. The young lady was Miss Mary Hall.

T. S. Stover was writing steadily at his desk and the sheriff came and stood silently at his elbow for a minute. Then T. S. turned: "Hello, sheriff. Glad to see you. Where have you been all the time, haven't seen you this year." Sheriff, with a sigh, "I've been in jail most all of this year."

C. G. Mull returned Tuesday from Newton where he went Sunday to put up the monument made by his firm at the expense of the Woodmen of the World for Guy Nebergal, who was killed in the Philippines. The Denver Post man thus sings of Roberts:

Three little girls are blue, boys,
Three little girls are blue!
They know that their dearie is coming home
leary,
Fired from the Congressional crew!
They wait in the City of Zion,
They're in a most pitiful stew!
Their lights cannot glim in the Washington
swim,
And three little girls are blue.

K. C. Independent: The colored regulars in the Philippines are as quick at repartee as they are prompt to obey orders. A black sergeant was hailed by a breezy Western volunteer recently with: "Well, nig, what are you going to do here?" The negro replied: "We're going to take up the white man's burden, I suppose."

The marriage of Miss Minnie Brown to Mr. P. L. Augustine is reported. Both are well known Iola people, the bride a daughter of A. H. Brown and the groom one of the men employed at the Brick Plant, although formerly employed at A. W. Beck's. They have the good wishes of all their friends.

Ira Kelly came home from Kansas City Tuesday where he purchased a rubber tired cab, a full lay-out of baggage checks and a lot of toy ideas. The cab will reach Iola today or tomorrow and no time will be lost in putting it into service. There isn't a man in Iola who isn't pleased every time they are called to note that Ira Kelly is doomed to die a rich man. The cab is the latest and it will be run as a clean, respectable public vehicle and will be appreciated by those attending parties and balls.

Junction City Republican: "If a man should wear his pants loose so long that whenever he appeared on the streets he would be obliged to reach around behind and grab hold of the basement and hold them up, wouldn't the ladies laugh?" Belleville Telegraph: "Yes, and if they also fastened them together behind with a pin arrangement and it was necessary to feel around behind in the rear every few minutes to see if said pin was still doing business at the old stand wouldn't it be still funnier?"

H. C. Post, the Missouri Pacific traffic agent, was here Tuesday conferring with the Iola Wholesale Grocery people and taking steps looking to locating them on the Pacific right of way. The house wants to build its ware room near the railroad and both roads have made overtures, but so far no definite decision has been reached.

When Mrs. Groth was arrested recently at Humboldt, there was a warrant also for her son, Ernest, but he skipped out and eluded capture. Monday he returned to town and was gathered in by the authorities and banded over under bond to appear for hearing. He also is charged with selling the drink that cheers to people who were already very much too cheerful.

The probate judge has the big Humboldt saloon mirror in his office and it seems probable that he will have it hung up and make people who want to get married face it while the ceremony is being performed. When they see how sheepish they look they are supposed to immediately hustle around and get another couple to appear, so that they can have their turn at laughing.

Humboldt Union: Milt. Simpson has leased his blacksmith shop to Joseph Cave for a year, and will go to Iola Jan. 1st and commence the erection of a shop in that city. Milt. is a good blacksmith and a tip-top horse shiner and we wish him success in his new location, but wish he could make up his mind to remain here. We wish the new proprietor of the 7th street shop a successful year.

A man from Nebraska has been visiting the Tom Anderson ranch for several days and may buy some blooded Polled Angus cattle. Tom says that during the last year the ranch has sold several bunches of these cattle at \$100 to eastern and southern breeders. The cattle shows have helped the price of fancy cattle wonderfully and the ranch has disposed of some \$12,000 worth and has several hundred head left.

The Humboldt Union thus loyally concludes its report of the prospective removal of Tholen & Achter to Iola: "We are sorry to hear of this removal, but suppose the proprietors deem it best, and they are the ones mainly concerned. Humboldt has had a wholesale grocery house for over twenty years and supposed it was a fixture here, but it seems not. We understand the move was made to keep a wholesale grocery house from locating at Iola, which of course is a good business move. However it may be we wish the proprietors success in their new location."

A REGISTER reporter caught Claude Culbertson interviewing Probate Judge Smith this morning and he blushed to the roots of his hair when the reporter looked at him. A stammering denial and a precipitate flight on his part and a calm assumption of ignorance on the judge's part would seem to indicate that Claudius Aurelius Cully, supposed to be beyond hope, was really hoping. Action on the part of the No Hopes is expected immediately.

A. W. Beck is in receipt of a letter from Jas. A. Davis, industrial commissioner of the Santa Fe, asking several dozen questions about Iola and her raw materials. Mr. Davis has done considerable good to Iola already, item, Cement Plant, and his continued interest as manifested by the letter is very pleasing. The letter wants to know about the factories now here, the mineral resources in the way of coal, gas, clay, etc., the agricultural products of the country and all the points which might lead to interesting some prospective manufacturer.

THE HUB

Clothing House.

Forced SALE

A Clear Case of MUST!

We are stuck, and we have the moral courage to admit it. The plain, unadulterated truth; and the only reason is: Too Many Overcoats—and too little Winter. We have waited and hoped for Jack Frost's arrival until it is dangerous to wait any longer. We are going to "take our medicine" in no half-hearted way.

All of you who have compared prices know that at all times, when others were advertising Cost Sales, and making Special Prices, you could go into The Hub and find the same goods at the same price, or a little cheaper. And there was the price in plain figures.

From now on, we propose to

Discount 25 per cent

on every Overcoat in the house. You know what that means: Select your Overcoat and

For sale or trade: Good, second-hand organ, a bargain, good as new. Second hand store over Bartel's grocery. (d8t-w1)

A full blood Hereford bull, coming three, for sale. Apply 5 miles east and one mile south of Humboldt. Robert Blum.

Robert Blum and M. A. Mosby, two prominent young farmers of Cottage Grove, made the REGISTER office a pleasant visit yesterday.

Samuel Kelly, the age father of T. E. Kelly, is lying at the point of death at the home of his son. Heart trouble, dropsy and old age are combined to bring the old gentleman to death's door.

The Iola Wholesale Grocery has received three car loads of goods, consisting of sugar, molasses and canned goods. Somehow they seem to have gained the impression that the people here needs sweetening.

Roy Stover is drawing a plat of all the land owned by the Cement Company. Next week they hope to move again into their office, the carpenters having jerked it together in much less time than was consumed in the original building.

J. A. Robinson has begun work on his new store building east of the post office block which he and his brother own. The new building will be two stories high, of Iola brick, and will duplicate in appearance one half of the post office building. This is the first outbreak of the naughty-naughtiness in which Iola intends to revel in '00.

Prof. F. W. Bushong and his family of the College of Emporia, are in Iola for a visit with the family of Prof. Bushong's sister, Mrs. D. B. Shuey. Prof. Bushong has just returned from a meeting of the Kansas Academy of Science, at McPherson, and reports a very interesting and highly practical meeting, more than half the papers dealing with the purely practical side of business life.

Mr. W. B. Bruce, a business man of Fort Scott, and his wife were in Iola Tuesday looking over the town. Mr. Bruce is a grocerman and butcher and is thinking seriously of locating in Iola. While here he purchased a lot and spoke as if he had immediate and serious intentions. He is a very pleasant gentleman and would make friends rapidly and doubtless to a good business should he come here.

Mr. Fuller, the real estate man, returned last night from a business trip to Yates Center. He reports the gas well in a bad state. In fact there was a hole, the first driller pulled up and left, but dropped "a lot of railroad iron in the hole." The next driller pounded on the iron and left. The new man went to salt water and then quit at a depth of 1300 feet and the people are sure that the Standard Oil octopus, knowing that the richest fields of oil and gas in the state is a few feet below the bottom of the hole, bought him off and he stopped. It is really too bad, but there is no need to put all the blame on the drillers.

Mrs. J. S. Turner, you know lives on a farm southwest of town and always has lots of nice apples to eat. John Tuggles and Frank Servey work at Evans Bros.' drug store and never see an apple, save when they see Mrs. Turner eating one. She gave them apples until she was tired and one day recently when they again asked for apples, she purchased and presented them with a sack full of dried apples. They are both very much swelled up over this attention.

The report is current on the streets that on Sunday night burglars cracked the safe of the Neosho Falls bank and made off with \$1000. No one seems to know whether the report is true and the report is said to be traceable back to a dispatch in the K. C. Journal of Monday, but a search of the Journal fails to locate the dispatch. The REGISTER sincerely hopes the rumor is false. LATER: An authentic report says the robbery occurred by was at Bishop's store, where \$2,000 in currency and \$1,500 in notes was secured.

KANSAS CLIPS AND COMMENTS

It is really distressing to learn so soon after the misfortunes of Lady Smith that the Misses Sippl was frozen at St. Louis lately.

John A. Crider, grand master of the A. O. U. W. in Kansas thinks this State will win the \$2,000 prize offered to the State gaining 25 per cent in membership for the year ending next July.

Kansas contributed in internal revenue \$932,026.25 in 1899. The chief source of revenue was from cowless butter, \$36,187.90 being collected for oleomargarine stamps in December alone.

The Atchison Champion says: "Bill Wilson flugs his wife too often." The rest of the state would like to know how many floggings are considered "too often" in exclusive Atchison society.

The Pittsburg Tribune advocates the following combination for 1900:

McKinley and Root.
Bryan and Hoge.
Campbell and lying cry.
Root, Hoge, or die.

W. H. Sears, of Lawrence, who was recently fired from his job for talking too much, will be the Populist candidate for congress in the second district. He believes that "it's an ill wind, etc." and that the thing that caused his downfall will be the means of his elevation.

Samuel Triplett, a Labette county boy, has been awarded a medal for bravery displayed when as a member of the crew of the Marblehead, he helped cut one of the Cienfuegos cables. The world is as amazed at the Kansas' feats on water as the men who mothers a flock of ducks.

C. E. Corey, bankruptcy referee of Ft. Scott, had a very disagreeable experience at Parsons recently, when he felt compelled to remove the diamond rings, worth \$600, from the fingers of two lady witnesses, to whom the bankrupt had given them. He can read dead moral certain that two people will hate him cordially the rest of his days.
